

**EAG**

# About Us

Elite Agro Group (EAG) is a trusted global leader in agrifood innovation, delivering integrated, end-to-end solutions across sustainable farming, smart agri-tech, food processing, distribution, and international trade. With a future-focused mindset, EAG nurtures both land and livelihood.

Guided by purpose, driven by expertise, and inspired by nature, EAG is building a resilient food system with a diverse product portfolio that includes fruits, vegetables, cereals, pulses, ornamentals, and many other high-value crops. As one of the fastest growing agrifood companies in the world, we are paving the way towards a more self-sufficient, food-secure future.

## Our International Reach

Elite Agro Group (EAG) is a leading global producer of fruits and vegetables, and high-value crops operating over thousands of hectares of agricultural land and greenhouses across Asia, Europe, Africa, and the Middle East. Our expansive network of state-of-the-art farming facilities enables consistent, high-quality production at scale, 52 weeks a year.

Rooted in global best practices and enriched by local heritage, our portfolio reflects a unique synergy of tradition and innovation. At EAG, we grow more than crops, we cultivate a legacy of excellence with every harvest.

## Vision

To be the world's most trusted and advanced agrifood group, sustainably feeding people and empowering communities.

## Mission

Advancing nutrition, wellbeing, and food security for all through growing, processing, and delivering premium year-round produce using smart farming solutions and integrated value chains.

## Values

**Customer Focus:** We anticipate and solve customer needs with dedication.

**Strategic Agility:** We make informed decisions and adapt swiftly to evolving needs.

**Sustainable Stewardship:** We manage resources responsibly for long-term well-being.

**Integrity:** We build trust through honesty, respect, and reliable actions.

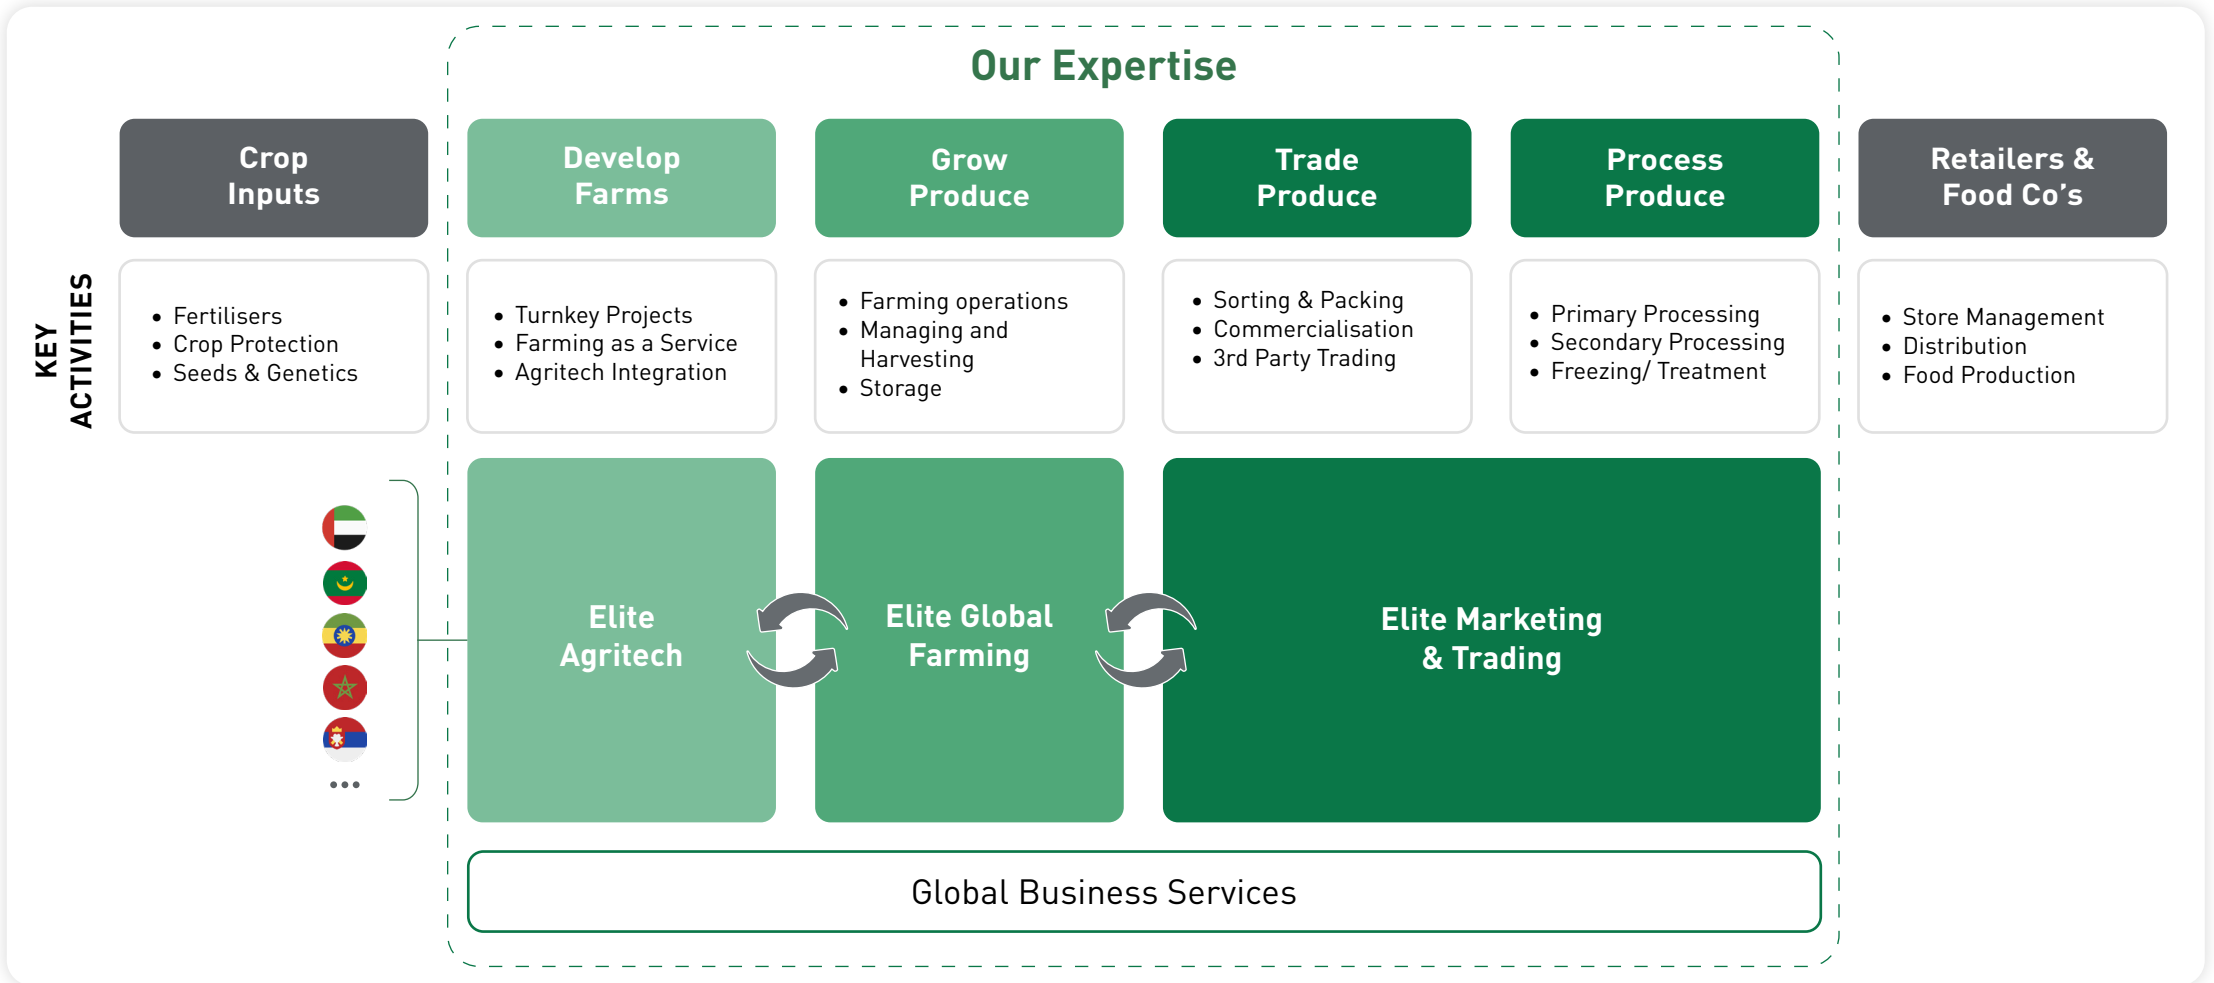

**Teamwork:** We achieve more by working together, openly and supportively.

# EAG in the Value Chain

Structured in three fully integrated global divisions

# Our Expertise Across Supply Chain

We deliver end-to-end agri-food solutions creating value from strategic planning and sustainable production to processing, logistics, and global distribution

## Strategic Feasibility Analysis

Identifying opportunities and offering market-driven strategic insights in agriculture and food sectors.

## Turnkey Project Development & Construction

Delivering world-class turnkey agricultural infrastructure through global design, build, and execution.

## Global Farming Operations & Management

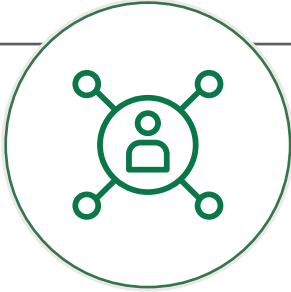

Managing agricultural, livestock, and food assets across the world.

## Regional & Global Distribution & Trading

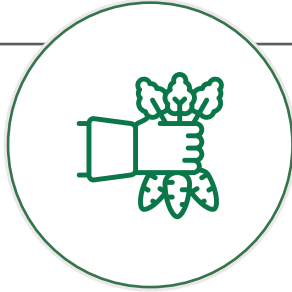

Ensuring year-round, reliable supply to meet dynamic regional and international market demands.

# Product Quality Control & Food Safety

## Farm

- Robust quality assurance protocols include MRL pesticide testing per batch
- Unannounced product and water quality audits, and full compliance with Good Agricultural Practices (GAP)
- Internal assessments, targeted training, and continuous farm-level QC reviews drive ongoing improvement

## Post Harvest

- Implements Good Handling Practices with certified pack house operations and multi-tier QC
- Inbound MRL checks (Level 01), pack-out inspections (Level 02), and stock audits (Level 03)
- Compliance is reinforced through targeted training, internal testing, and continuous review

## Dispatch

- Certified post-harvest process
- Level 04 outbound QC, integrated with customer feedback, corrective actions, and continuous improvement through systematic reviews

# Our Certifications

## Consistent High Quality Service Level (QSL)

Harvested and delivered with the highest standards

## Reliable Supply Chain

Farm-direct sourcing ensures continuous availability

## Flexibility

Tailored solutions for chefs, hotels, and catering partners with Field Level traceability

## Certified Quality

BRC, Global G.A.P., HACCP and ISO

## ESG Commitment

Sustainable farming, responsible sourcing, and community focus

## Integrated Agrifood Partner

Certified against all major industry standards

## Our Key Numbers

**12,500+ MT**

Imported, high quality  
fruit & vegetables

**8,000+**

Pallets of fresh  
fruit & vegetables  
per month

**1,200 sqm**

Commercial cold  
storage

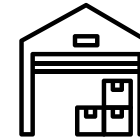

**365 day supply**

Key supplier contract  
sourcing agreements

**20,000+ Ha**

Under Management

**54,000+ MT**

Production storage

# Elite Agritech (EAT)

The Agritech division of Elite Agro Group delivers turnkey agricultural solutions powered by innovation. We specialize in designing and executing medium- to large-scale projects, integrating R&D, IoT, and AI-driven systems.

With over 100 successful projects completed locally and globally, we bring deep expertise in crop production, precision irrigation, and climate-resilient infrastructure.

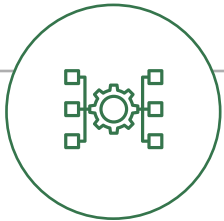

Our advanced solutions enhance water and energy efficiency, supporting sustainable agriculture across diverse regions.

Backed by strategic partnerships and a forward-looking mindset, we are building smarter, future-ready farms that meet today's needs and tomorrow's challenges.

# Elite Agritech Services
