...

About Us

Premier is a licensed, private limited insurance brokering company since 2017 in United Arab Emirates, the company is one of the unique insurance intermediaries operating in the region.

At Premier, we realize that financial solutions are as diverse as clients' needs, and no one solution can serve everyone. Driven by the core purpose that **our talented team specializes in personalized innovative solutions driven by integrity, cultural values and fostering long term relationships.**

Striving to be No. 1 rated insurance intermediary risk services broker

Accredited with all "A" rated insurance companies

Servicing international and local companies alike

...

Our Approach

A wholly owned subsidiary, in Abu Dhabi City, Premier Insurance Brokers L.L.C, functions as an independent insurance broker with access to all insurers in UAE and a number of insurers overseas as well, through our partnership with Lloyds of London. PIB is registered by the Insurance Authority of United Arab Emirates.

The UAE operations have various division split between consumer "Employee Benefits" and Commercial:

**Business
Development**

Risk Assessment

Placement

Operation

**Specialized unit in Marine
and Aviation**

Claims Handling

Our Solution

We will conduct a detailed review of your insurance requirements from a risk management standpoint, draw up an appropriate insurance program and identify the different areas that the business is exposed to risks and insurable losses.

We identify which risks are to be insured, we will negotiate the placement of contracts at most competitive terms taking into consideration the current market conditions and the security of the underwriters and their re-insurers.

We assist in designing policies which are of benefit (in terms of scope of cover, differentiation etc.) to the organization. Additionally, it would leverage from the market service level in terms of response time, documentation delivery etc. to ensure efficiency of operations.

We assist in managing of claims from the time of occurrence until settled. This would include advice on documentation, negotiation with insurers and their loss adjusters with a view to obtaining accurate reimbursement within the terms of the contract for the relevant losses.

We offer a comprehensive advisory service to our clients. This would include an ongoing risk analysis, surveys, statistical analysis, market information and identification of suitable products, seminars, education on risk management techniques etc.
